

### **Indoor Air Quality (IAQ) Assessment Services**

1. FHLBank Pittsburgh occupies 10 floors at 601 Grant Street and is concerned about the indoor air quality (IAQ) of their space. FHLBank Pittsburgh wants to investigate options to improve HVAC systems performance relative to reduction to occupant exposure to infectious aerosols, including upgrades to improve ventilation, filtration, and space relative humidity.
2. Scope of services are as follows:
  - a. Provide a report of as is HVAC conditions in the space
  - b. Review possibility of increasing Outside Air to HVAC system
  - c. Review possibility of increasing filtration levels
  - d. Review options for adding UV to the HVAC system
  - e. Review options for adding Ionization to the HVAC system
  - f. Review options for adding humidity to the HVAC system
  - g. Make recommendations for increased air purification & filtration
  - h. Describe new system options to improve filtration and eliminate airborne contaminants
3. Any interested companies that are interested, please respond by Tuesday, August 25, 2020.
