Self-Closing Lid

Spring-loaded, flip-close lid provides easy access, prevents dry-out and increases compliance.

Heavy Duty Cloth

Heavy-duty, non-woven cloth design provides uniform liquid release on surfaces and prevents bunching or tearing in the dispenser.

Mountable Rack

Available wall mountable tub rack (sold separately) facilitates increased compliance by making it easier to have a disinfectant wipe within reach.

Reduce Waste

Convenient refill rolls sold in plastic pouches reduce waste and save money. Our pouches are triple-laminated to help maintain stability until you are ready to use the roll.

Safe for Dental Chairs

WIPEOUT DISINFECTANT is gentle enough to be used on dental chairs when used as directed.*

One-Stop Shop

WIPEOUT DISINFECTANT is a versatile disinfectant solution that can be used on a wide variety of surfaces throughout the office.

Broad Spectrum Disinfection

The wipes are not only effective at cleaning, they also provide broad spectrum disinfection in efficient contact times. Soiled surfaces require a preclean step.

Calendar Stickers

Easy-to-read calendar is provided with every tub of wipes and refill pouch to easily keep track of when product was opened, making inventory management easier.

Disinfectant Wipes

CDC Compliant 75% Alcohol

Disinfectant Wipes in tubs or packs. Sold in sheet counts of 50 ct, 60 ct, 75 ct, 100 ct, 160 ct. Also offer custom logo for tubs. \$3 to \$6 range All CDC compliant.

High Volume Temperature Verification

FDA, FCC, CE Certified.

Piece of mind in seconds.

\$8500 range (MSRP \$9000)

[VIEW DETAILS](#)

Make large-scale temperature verification quick, easy, affordable, and safe.

i-OnTemp provides the power and accuracy of large-scale airport systems in a next generation mobile unit.

Placed at the entrance of public locations, i-OnTemp will identify and alert on potentially sick persons based on their skin temperature.

No need to stand in front of the system, no need to wait for processing time, no installation required.

With the ability to measure over 100 individuals per minute, people can pass freely and anonymously while being checked by the system.

CODIV-19 will continue to surround us in the foreseeable future and will maintain a formidable and costly impact on the public and corporate environments.

With regulations that require temperature verification at public/employee/student entrances for businesses to re-open it is imperative to have an effective solution.

The current temperature handheld solutions require costly additional staffing while preventing traffic flow and creating bottlenecks.

allows us to passively scan guest temperatures discrete

[CLICK HERE TO VIEW VIDEO](#)

i-ONTEMP

Thermal Imaging Device for Temperature Verification

[CLICK HERE TO VIEW LOOKBOOK](#)

i-OnTemp is the complete thermal imaging solution to help identify potentially infected individuals, up to 100 per minute. Utilize military-grade technology with civilian-friendly software to provide a safe and convenient way to get back to business quickly.

Place i-OnTemp unit is placed in any public or employee entrance. No installation effort is required.

A quick tutorial allows for any attendant's ease of use.

Configure and calibrate system with required notification temperature

Public can walk freely through the entrance without delay.

i-OnTemp sends an Immediate simultaneous visual and audio warnings to the attendant when temperature exceeds pre-defined settings.

i-OnTemp will help you fight the outbreak with minimum interference to the freedom of movement. You could manually verify with IR thermometer only suspected persons. Eliminate backed up lines to enable social distancing.

Plug and Play: Intuitive system requires minimal training.

The benefits of the I-On Temp system could justify the expense within the first month of use.
