

SLEEVES UP

A Virtual Blood Drive

In celebration of our 50th Anniversary and the work we do across the region in support of diverse entrepreneurs, EMSDC will host a series of service projects throughout 2022.

Join us in giving back by making a life-saving blood donation between April 1 – June 30 and help us reach our goal of 50 donations per month. Every day, blood donors help patients of all ages: accident and burn victims, heart surgery and organ transplant patients, and those battling cancer. In fact, every two seconds, someone in the U.S. needs blood.

Did you Know: “When you donate, blood is tested for specific antigens that are needed to treat sickle cell disease. If your blood contains those characteristics, you can help sickle cell patients by donating whole blood, plasma, or platelets.”

Sickle Cell Anemia, disproportionately impacts people of color, particularly Blacks and Latinos.

[Click here to schedule a donation](#)

You will also be entered in a drawing each month as an extra thank you!
Can't donate blood? Consider making a [monetary donation](#) or [volunteering your time](#).
