Mobile Device Endpoint Security Software (Non-Staff Augmentation)

Description:

FHLBank Pittsburgh is seeking an existing mobile security application for Android and iOS devices that provides modern endpoint security to protect devices and personal data.

- Integrates with Microsoft Intune Mobile Device Management
- The solution must provide adequate security, without disrupting user privacy and productivity
- Protects against advanced phishing, targeted malware, device level (jailbreak, rooted), and network level (man-in-the-middle, rogue Wi-Fi) protection for mobile users
- Monitors information and alerts whenever anything is found exposed online

Date to inquire about opportunity: Tuesday, September 8, 2020.

Thank you!

Joel A. Acie
