

Solicitation Title: Move & Reinstall Library Stacks and Shelving (RFP 10090)  
Number: Community College of Philadelphia  
Bids Due: 11/11/2019 12:00:00 AM Eastern

## Purpose

The Community College of Philadelphia (CCP) is seeking proposals from firms qualified and experienced in Professional Library Moving. The CCP intends to use the results of this process to award a contract for Library Moving Services.

## Project Description

The CCP Library is currently located in the Mint Building at 1700 Spring Garden Street, Philadelphia, PA. See the Campus Map.

The library is currently being renovated, and the existing book stacks will be moved from the Mint Building into a newly renovated room in the adjacent Bonnell Building. Refer to Drawing G003.1 which shows Phase 1 and Phase 2 construction areas. The existing books and shelves are located in the area labelled "Phase 2 Construction", and they will be moved into the area labelled "Phase 1 Complete."

The floor levels of the two areas are different. The Bonnell Building floor is approximately three (3) feet lower than the floor level of the Mint Building. At the time of the move, there will be a newly constructed ramp connecting the two areas.

Approximately 313 shelf sections are to be moved, providing approximately 50,000 spaces.

Drawing IF-101-C shows the arrangement of the relocated shelves in the new space.

Approximately 38,000 books are to be moved. They shall be placed in the order shown on the drawing titled "Proposed Library Shelf Space."
