

STOP GUESSING. START PREDICTING.

Traditional workers' comp is reactive and outdated. ToughComp uses AI and predictive analytics to transform your approach—lowering your mod, reducing premiums, and **identifying injuries** before they happen.

AI-POWERED WORKERS' COMP

Real-Time Risk Detection

Identify unsafe behaviors before they become costly claims.

Predictive Insights

Identify hidden risk patterns to reduce claim frequency and costs.

Control Your Costs

Reduce loss frequency and severity to lower your workers' comp premium—before claims impact your mod.

PROVEN RESULTS

35% Reduction in Claims Frequency

41% Reduction in Slip, Trip & Fall Hazards

96% Injury Causes Identified

**HIGH MOD? OVERPAYING? LOSING CONTROL?
WE FIX THAT.**
