

## **NQP MEDICAL RECORD ABSTRACTION PROCESS DSRIP MEASUREMENT YEAR 3 (MY3)**

The Nassau Queens Performing Provider System (NQP) Medical Abstraction process will begin on **September 25, 2017**. NQP partners selected for this review will be notified and contacted by the New York State Department of Health (NYSDOH) medical record review vendor **MedReview, Inc.**

MedReview will conduct an audit of Medicaid services for non-claims based measures during the measurement year 3 period from July 1, 2016 – June 30, 2017. For NQP, review includes services rendered for following 3 measures:

1. HEDIS Measure
  - Comprehensive Diabetes Care
  - Controlling High Blood Pressure
2. Non-HEDIS Measure:
  - Screening for Clinical Depression

In order to facilitate these reviews, MedReview will contact NQP Provider Partners in the following manner:

- Provider Partner Sites with less than 20 Medical Record Requests notification of record review is received via mail with instructions for contacting MedReview
- Provider Partner Sites with 20 or more Medical Record Requests, MedReview will conduct telephonic notification and appointment scheduling

The results from the reviews are included in our final performance results for the measurement year, which is linked to funds flow payment to the PPS.
