Breaking the Silence: Healing Through Recovery & Mental Health Support

OCTOBER IS
**DOMESTIC
VIOLENCE**
AWARENESS MONTH

**24/7
Hotline
CALL/Text:**

**(877)
863-6338**

In support of Domestic Violence Awareness Month, this panel will focus on the intersection of domestic violence, substance use recovery, and mental health, particularly in communities where survivors often face compounding trauma, stigma, and limited access to care.

We aim to elevate the voices of survivors, peer support specialists, and advocates who are leading community-centered responses to violence and trauma.

Panelists will share the role recovery support plays in healing, and how peer-based and trauma-informed care can empower survivors to rebuild their lives.

Ve Lewis, M.A.
Crisis Worker
Loretto Hospital
