-Quiz (week 16)

Dear Parents,

Welcome to the 15th and 16th week of school! We have a very short week ahead with only two full days and one half day.

Classroom Items: The field trip form was inside last week's orange folder. Please fill out the form and return as soon as possible. You do not need to send in any money, just the phone. There are no slots for chaperones, as we do not require chaperones for this trip. Don't worry, we will definitely need some assistance for the second field trip next semester. ☺ **Your student is scheduled to perform in their winter performances on December 9th from 3:45-4:10.**

School Wide Items: As noted there is one half day this week. Please do send your student with a snack, but no lunch on Wednesday.

Academic Items: In week 16, math we are beginning multiplication and division! Be attentive to your student's homework to ensure we have a smooth start to this challenging unit!

As you move forward with your plant project, you should now be done with your final draft, working on your project, and working on memorizing their presentation. Mark your calendar for second grade's annual Plant museum! Parents are invited to tour 2nd grade's plant museum. Your students will showcase their plant projects for your viewing. I am sure they would love to have you there! **The plant museum will be open to visitors on December 6th from 1:00-1:30.**

If you can find the time to volunteer for reading groups, please do sign up for a slot.
