

Dear Swain Families,

Here's the information for which you have been waiting! Magnus Health has a COVID-19 Screening app that we have implemented. This is how everyone (students and all personnel) will complete the daily screening tool each morning, prior to leaving for school. No one will be able to enter the school building without completing the daily screening tool.

This screening process helps us create the safest possible environment for everyone on campus and it provides a secure way for the Health Office to collect and manage the daily screenings.

Please follow these steps to get started:

1. Download the "Magnus Mobile V2" app from the Apple Store or the Google Play store.
2. Please refer to the important [Instruction Sheet](#) on how to create your login credentials.
3. Your current Magnus username/password combination can be used to login to the mobile app.
4. If you have more than one student, you will need to do a screening for each student every morning.

COVID-19 Daily Symptom Screening In Magnus Health

- Access the Mobile App from your smartphone.
- Access the screening via the button titled "COVID-19" and complete the daily screening.
- After you complete the survey each morning, you will receive either "GO" to school or a "STOP" and stay home message for that day.
- If you receive a "STOP" message, please follow the directions in the app message.
- If the screening has not been completed before you arrive on campus, you will receive a reminder call from the main office to complete it. Your child(ren) will not be permitted to go to class until the screening is completed.
- As of tomorrow, you will have access to practice completing your Magnus Health COVID-19 Daily Screening if you plan to return to school in-person next Wednesday. Completion of the screening tool will be required beginning Wednesday morning.

- We thank you in advance for your cooperation in this daily screening as it is an integral part of our Health and Safety Protocols.
- Each student must submit the screening every morning no later than 7:00 a.m. Please reserve 1 to 2 minutes to complete this screening.

For any technical issues with the mobile app such as login problems, or problems completing the screening, please contact Magnus Customer Support at Magnus Health by phone at 877.461.6831 or by email at service@magnushealthportal.com.

If you have other questions about the Magnus Health App or the Daily Screening Tool, please email [Karen Mitton](#) or [Dana Brndjar](#).
