

Biography for Glenn Martin

My family and I have been Sully Station II residents since July 2001. In the past 23 years, I have served as the Treasurer for the Deer Park PTA and the Westfield High School Music Booster Club, participated in the Centreville and Westfield High Schools' tutoring programs, and volunteered in many Sully Station II community activities. In addition, since 2015 I have served on the Sully Station II Community Association (SSIICA) Board of Trustees (BoT) as Vice President, President, and currently as Treasurer.

I currently work for the United States Space Force as a support contractor. Prior to that, I proudly served in the U.S. Air Force for almost 30 years. Over my career, I served in numerous leadership roles involving program management, acquisition, systems engineering, research and development, and operations of space systems. Two of my key tenants are 1) It's amazing what you can accomplish when you don't care who gets the credit, and 2) Seek out the best in people. Embracing and practicing these two tenants has garnered success for the missions I've been involved in.

I consider myself a servant leader, having devoted myself to military as well as volunteer service for most of my life. I understand how to lead as well as how to participate in teams. More importantly, I know how to get results by developing relationships, listening to others, and communicating openly and honestly. The last nine years on the Board of Trustees has reemphasized for me the importance of these principles.

I am seeking your support to continue serving on the Board of Trustees because I believe in giving back to the Community that has given so much to my family over the past years. I understand that the Association needs good, honest, and capable individuals to serve on the Board and I believe that while working together with the other Board members I can positively influence the process to make our Community a better place.

As the SSIICA BoT Treasurer, I review the Association's financial reports each month prepared by the managing contractor, FirstService Residential, to ensure that the Association's funds are used only for approved expenses and I approve select invoices and check requests as the Board's representative. I also dedicate myself to prevent any malfeasance that could risk the Association's \$3 million in assets. I recognize that it's your hard-earned money, too, and want to fulfill the trust you've placed in the Board to manage it.

The U.S. Air Force Core Values are: Integrity First, Service Before Self, and Excellence in All We Do. I have lived those values for over 30 years and you can trust me to continue that behavior. I will do my very best to help make Sully Station II a Community you're proud to call home.
