

John Warzybok

I am currently serving you on the Sully Station II Board of Trustees and am submitting my nomination to continue to serve.

Background and experience

- Trustee on Sully Station's II Board of Trustees
- Association Townhome Owner for over 22 years
- Both a B.A. and an M.Ed. from The George Washington University
- 30 Years of Project Management Experience.
- Owned and operated a contracting business in Northern Virginia for ten years
- United States Marine and Combat Veteran
- Retired Science & Technology Teacher/Trainer

Why Vote for me?

Given the choice, I believe most folks prefer living and raising their families in a safe, clean, and beautiful residential, family-oriented community with great public schools, churches and many other amenities they can proudly call home and mean it! This, in my opinion, is exactly what Sully Station II represents to me, and why my wife Diane and I have chosen to live here!

The Right Stuff

Any measure of success or failure in maintaining such a fragile community dynamic as I described in the previous paragraph, is not without its many obstacles and challenges requiring the right people in place to successfully resolve them. The success or failure of any residential community, in part, relies heavily on the people themselves living together in that community, their elected leadership, respect for the laws, one another, and how "neighborly" they may choose to be. It's a delicate balance requiring constant balancing of the "right stuff."

The Big Wheel keeps on turning!

With this being said, it's a never-ending job of maintaining our homes, streets, sidewalks, parking areas, common areas, and other amenities to preserve the quality of life for our residents. We all must do our part to cooperate, compromise, and work together in the binding interest of our collective quality of life we enjoy while living here in the Association.

Mission Promises Possible

Protecting and preserving our Sully Station II community is my mission and why I am running for my second term as Trustee. As Trustee I promise to do my best for the Sully Station II community wherever my knowledge, skills, education, and experience allows. I will give my best as a contributing member of the Board and be a contributing asset to my fellow trustees.

I care about the best interests of all Sully Station II residents and with your vote, I will continue to do my best to represent all residents fairly and equitably on the Board.

Please vote for John Warzybok as a Sully Station II Trustee!
