IRS e-file is the fastest most accurate way to file your taxes. It's a simple process. **IRS e-file** means fast refunds - in half the time compared to filing a paper return - and even faster and safer with Direct Deposit...refunds in only 7 - 14 days!

Direct Deposit - An electronic transaction that is available to both e-filers and those filing a traditional paper tax return is direct deposit. Choosing direct deposit is easy; return filers just enter their account number and routing number on the return form. **Those who choose direct deposit will get their refunds a week quicker than those who receive a paper check. Also, a refund that is directly deposited in a savings or checking account cannot be stolen or lost in the mail!**

And don't forget, in Ohio you can **e-file** your federal and state tax returns together. Fast, smart, safe and convenient ...that's **IRS e-file!**
