

**CFAES**

OSU Extension Pike County presents:

# Global Climate Change Update

**Presenter: Dr. Thomas Blaine, PhD**  
**Associate Professor, The Ohio State University**

Come learn about the history of climate change, its current trends and outlook. Hear how it applies to your backyard, farm and everyday life.

Having grown up along the Ohio River, Dr. Blaine has a strong connection to the entire region, including Pike County. He conducts research and develops educational materials that deal with the economic dimensions of environmental topics that range from global climate change to recycling, preservation of farmland and green space, protection/improvement of Lake Erie water quality, and local food production and consumption in areas referred to as “food deserts”.
