

2021 SPONSORSHIP OPPORTUNITIES

Thank you for your interest in supporting the FLATE Manufacturing Education Awards!

The Florida Advanced Technological Center (FLATE) and FloridaMakes, are working together to recognize educators as well as industry and community partners who support the advanced manufacturing industry in Florida.

In their 14th year, the awards are geared to recognize secondary and post-secondary educators, and industry professionals for their outstanding contributions to promote and support technology education and careers awareness in manufacturing.

Award winners are selected from nominations submitted from all across the state. Nominees are judged by an Awards Committee made up of industry representatives, Florida Association of Industrial and Technical Educators (FAITE) board members, past awardees, and members of the FloridaMakes Advanced Manufacturing Workforce Leadership Council.

This year the Awards will be presented during the MakeMore Manufacturing Summit - Talent Development Segment, scheduled June 22 and 23.

Your financial contribution will help cover the costs for the Awards ceremony, the winners' trophies, as well as their participation in the Florida Association for Career & Technical Education Annual Conference-FACTE and the MakeMore Manufacturing Summit.

To become a sponsor please contact Marilyn.Barger@flate.org.
