

# AT-HOME SUNDAY SCHOOL INSTRUCTIONS

While the pandemic restrictions prevent the children from coming together for our regular Sunday School, we are offering an at-home version for families. These lessons maintain the concept of our rotational Sunday School model, just modified for use at home. Here is how it will work:

**Step 1** - Go to the parish website ([www.stje.org](http://www.stje.org)) and go to the Online Church page. Scroll down to the Offerings for Children and Families section.

**Step 2** - Click on the "Monthly Sunday School Plan". This document contains the theme for the month, the lessons for each week, and the necessary supplies for each lesson. You should review this plan in advance, so you know what to have ready each week.

**Step 3** - Each week, watch the Sunday School lesson video. In the video, Mr. Matt or other teacher will share the story and lesson for the day.

**Step 4** - After watching the lesson video, do the activity for the day. You can either do this on your own using the lesson from the Monthly Sunday School Plan, or you can watch the activity video and follow along with the instructions.

If you have any feedback, questions, or concerns, please contact Matt Williams at the church. We hope this "virtual Sunday School" helps your family to keep growing in the faith until we can all be back together!
