

# 2-48DS Global

## Self Propelled Shot Blaster

### 2-48DS Global

Walk Behind Shot Blaster

The 2-48DS is Blastrac's largest shot blaster to date. This machine is a highly versatile shot-blaster with a four foot wide blast pattern. The 2-48DS Global can be used for floor preparation, renovation, maintenance and for decorative purposes. The ergonomic design and user friendly control panel makes for easy handling. The double rear wheels and idler with gas spring cylinder system helps to make the machine efficient for all floor types.
