

Monthly Indicators

March 2025

U.S. existing-home sales rebounded from the previous month, rising 4.2% to a seasonally adjusted annual rate of 4.26 million units, according to the National Association of REALTORS® (NAR). Economists polled by Reuters had forecast sales would fall to a rate of 3.95 million for the month. Purchase activity increased in the South and the West but decreased in the Northeast, while sales in the Midwest remained unchanged from one month earlier.

New Listings increased 18.6 percent for Residential homes and 184.6 percent for Townhouse/Condo homes. Pending Sales increased 6.3 percent for Residential homes and 135.7 percent for Townhouse/Condo homes. Inventory increased 5.9 percent for Residential homes and 45.6 percent for Townhouse/Condo homes.

Median Sales Price decreased 2.7 percent to \$180,000 for Residential homes and 8.8 percent to \$175,500 for Townhouse/Condo homes. Days on Market increased 7.0 percent for Residential homes and 5.7 percent for Townhouse/Condo homes. Months Supply of Inventory increased 4.8 percent for Residential homes and 33.3 percent for Townhouse/Condo homes.

Heading into March there were 1.24 million properties for sale, a 5.1% increase from the previous month and a 17% jump from one year ago, for a 3.5-month supply at the current sales pace, according to NAR. While mortgage rates have remained in the mid-to-high 6% range, the additional supply appears to have helped bring some buyers out of the woodwork, even as sales prices continue to rise nationwide.

Housing Affordability Index

This index measures housing affordability for the region. For example, an index of 120 means the median household income is 120% of what is necessary to qualify for the median-priced home under prevailing interest rates. A higher number means greater affordability.

March

Year to Date

Affordability Index	Residential	Year-Over-Year Change	Townhouse / Condo	Year-Over-Year Change
