**CLUB COTILLION** For 4<sup>th</sup> – 5<sup>th</sup> grade students

**Club Cotillion** builds upon students' basic understanding of the social skills that contribute to character, improve communication and develop successful relationships. Developing a sense of social awareness in this interactive atmosphere allows students to apply their knowledge in everyday life.

**SOCIAL SKILLS ESSENTIALS** For 6<sup>th</sup> – 8<sup>th</sup> grade students

This is an advanced course designed to help our older students bridge the gap between basic social skills and social intelligence. The education is not only instrumental in developing positive relationships, defining character, and facing personal challenges – it will play a primary role in opening doors of opportunity in high school, college and beyond.

Class sizes are limited, therefore, we highly encourage you to register early as the program fills quickly. Registrations are taken on a first-come, first-served basis.
