

STRENGTHENING THE READING CLASSROOM

SERIES #1: You Can't Judge a Book by Its Cover! *Re-energizing Your Classroom Library*

STEP #1: CLASSROOM LIBRARY AUDIT with AHRENS EDUCATION GROUP

[Ahrens Education Group](#) works with school districts to inventory, audit, assess and enhance their classroom libraries using [Booksource Classroom](#). The process is designed to help districts better understand what books are available to their students and cultivate their libraries to maximize district curricular goal alignment and student engagement. Each individual [Classroom Library Assessment](#) is customized to meet the specific needs of the school district.

Phase 1:	Phase 2:	Phase 3:
• Framework & benefit introduction with district leadership • Discovery: what are the needs of the district, community, and site stakeholders? • Physical inventory of books	• We collect & organize data at district, site, and classroom level • 1-on-1 meetings with district and site stakeholders to review data • Provide training videos and documents for data analysis	• Book recommendations based on needs & data • Assistance with site specific lists • Recap of title data and student activity reporting • “Train-the-trainer” in-service with site leaders

After the classroom audit with Ahrens Education Group, you now have great new books and increased knowledge about the books that are in your classroom library!

STEP #2: IMPLEMENTATION SUPPORT with the CESA 6 LITERACY CENTER

Following Phase 1 and 2 of the classroom library audit, the [CESA 6 Literacy Center](#) will support teachers and leaders to strengthen the implementation process.

- Understand the purpose and value of a high-quality classroom library
- Explore key elements of classroom libraries including atmosphere, organization, quality and selection, and reflections and connections
- Learn how the readers in your classroom, time, and choice impact motivation and the use of your classroom library.
- Design ways to keep your classroom library “alive” and engaging across the entire school year.

Professional learning and facilitated coaching sessions will provide support to build, grow, and enhance not only the physical space of your classroom library, but also the opportunities for your students to engage with high quality texts that they can and want to read!
