## Note to Referring Professionals

Capstone fills an important void in the continuum of services for at-risk youth. Capstone is unique in providing an intensive highly structured, small group, summer therapeutic program to young children who have already manifested behavioral and self-regulation issues enough to warrant consideration of special education services. Also unique to Capstone, we simultaneously intensively training their parents using live, in vivo coaching in state-of-the-art behavior management and emotion regulation tools to effectively guide their children.

As a therapist, counselor, educator, or other referring professional we welcome your inquiries about the program or the goodness-of-fit for specific children you might be in a position to refer to the program. If you would like to speak with the Capstone Directors, Dr. Steven Kurtz or Dr. Carly Mayer, please simply email [info@kurtzpsychology.com](mailto:info@kurtzpsychology.com) and we will schedule a call at your convenience. If you would simply like us to send you some hard copy brochures, please use the same email indicating how many brochures you would like and where to send them. If you prefer to call us directly, our phone number is 212-658-0110.
