Siena College NY 14th Congressional District Poll:

Ocasio-Cortez Viewed Favorably by Majority of Voters in Her District; 48% of All Voters, 61% of Dems Would Re-elect AOC

Strong Majority of Voters Say Amazon Canceling Planned Queens Headquarters is Bad for NY; Strong Majority Want Amazon to Reconsider

Vast Majority Don't Describe Themselves as Democratic Socialists; But, Overwhelming Support for Medicare for All, Free Public College Tuition, Guaranteed Job at Living Wage, Banning Assault Weapons, and Taxing Income Above \$10M at 60%; Green New Deal Supported 41-20%

Loudonville, NY. Representative Alexandria Ocasio-Cortez has a positive 52-33 percent favorability rating among voters of her district nearly three months into her first term in Congress, and 48 percent of all voters and 61 percent of Democrats would vote to re-elect Ocasio-Cortez in 2020 while 39 percent would prefer someone else, according to a new Siena College poll of New York CD 14 registered voters released today. Fifty-seven percent of CD 14 voters think it was bad for New York that Amazon cancelled its plans to build a new headquarters in Queens while 32 percent say it was good for New York, and by 58-35 percent, voters in CD 14, which includes sections of both Queens and the Bronx, support Governor Cuomo's efforts to woo Amazon to reconsider its decision.

When it comes to politics, only 25 percent of voters in Ocasio-Cortez's district would describe themselves as a Democratic Socialist while 70 percent prefer describing themselves in 'some other way.' Still, overwhelming majorities are in favor of Medicare for all, free tuition at public universities across the country, a federal guarantee of a job that pays a living wage, banning assault weapons and taxing incomes above \$10 million at rates of 60 percent or more. The Green New Deal garners the support of 41 percent of Ocasio-Cortez's constituents with 20 opposed and 38 percent indicating that they don't know enough about it.

"AOC's favorability is a plus 19 in a district where two-thirds of votes are Democrats," said Siena College Research Institute Director Don Levy. "Among Democrats her favorability soars to 65 percent and moves even higher to 79 percent among self-described liberals. Although it is very early, with nearly half of all voters and 61 percent of Democrats saying that they would vote to re-elect Ocasio-Cortez in 2020, she may be in position to represent this district for at least another term."

“Led by the Democratic majority in the district, voters strongly support much of the legislation that Ocasio-Cortez is advocating,” Levy said. “About three-quarters of all voters and over 80 percent of Democrats are in favor of free tuition at public colleges across the country, banning assault weapons, a federal guarantee of a job that pays a living wage and Medicare for all. By two-to-one they support ‘The Green New Deal’ with Democrats at five-to-one although almost 40 percent do not have enough information about it in order to say. A majority oppose repealing and replacing Obamacare and a small majority would support impeaching the President.”

Attitudes towards Representative Ocasio-Cortez in CD 14

A majority of her constituents, 52 percent have a favorable opinion of Representative Ocasio-Cortez while 33 percent view her unfavorably. Two-thirds of Democrats view her favorably while nearly three-quarters of Republicans have an unfavorable view of Ocasio-Cortez. Overall, Ocasio-Cortez has a positive 47-42 percent job approval rating with Democrats grading her at 59-32 percent and Republicans at 17-74 percent. Nearly half of all voters, 48 percent, and 61 percent of Democrats are prepared at this point to re-elect Ocasio-Cortez, while 39 percent of all voters, 78 percent of Republicans, but only 27 percent of Democrats prefer someone else.

“AOC has jumped onto the front pages and certainly has attained household name status in her district,” Levy said. “Nearly two-thirds say that they are following the coverage of their freshman representative closely and while only one in seven have no opinion about her, favorable or unfavorable, Joe Crowley after 10 terms remains unknown to nearly 40 percent of voters.

“Fifty-nine percent of voters say that they are proud to have Ocasio-Cortez representing the district and 61 percent agree that while many of her ideas on the economy, climate or healthcare may not become law soon, they think she is moving us towards a more fair and just society,” Levy said.

“But some have their doubts. Forty percent agree while 51 percent disagree that Ocasio-Cortez is simply too inexperienced to be their representative, and voters are nearly evenly divided as to whether her ideas are too radical, too far to the left with 43 percent saying that she is too radical and 47 percent saying that she is not,” Levy said. “And while Ocasio-Cortez has described herself as a Democratic Socialist, only a quarter of her district, a third of Democrats and 44 percent of liberals are willing to do the same.”

Siena College Poll – April 10, 2019				

###

This Siena College Poll of NY 14 was conducted March 31- April 4, 2019 by telephone calls conducted in English and Spanish to 607 New York CD 14 registered voters. Respondent sampling was initiated by asking for the youngest male in the household. It has an overall margin of error of +/- 4.3 percentage points including the design effects resulting from weighting. Sampling was conducted via a stratified dual frame probability sample of landline and cell phone telephone numbers (both L-2 Voter file) from within New York CD 14. Data was statistically adjusted by age, party by county, race/ethnicity by county, and gender to ensure representativeness.
