

## **UUCGL Congregational Vision Statement**

### **Our Spiritual and Covenant Vision**

We envision a congregation that lives its covenant fully, embodying Unitarian Universalist values in worship, relationships, and engagement with the wider world. We are a spiritual home where care, compassion, and mutual responsibility are visible, and where people feel welcomed, connected, and supported by active ministries and shared life.

### **Our Community and Mission Vision**

We envision a growing, diverse, and vital congregation deeply engaged with its surrounding communities. Our church is a trusted community hub—alive with events, service, and partnerships. We represent UU values prominently and use our building as a welcoming center for connection, creativity, and outreach.

### **Our Organizational and Stewardship Vision**

We envision an efficient, spirited, and well-resourced organization structured to support our mission. Leaders, staff, and volunteers share clear roles and responsibilities, working transparently and collaboratively. We steward our human, physical, and financial resources wisely to remain resilient and mission-focused.

### **Our Long-Term Sustainability Vision**

We envision a financially sound and responsibly scaled congregation, able to adapt while remaining faithful to its purpose. Through thoughtful planning, shared staffing, and effective use of our building and endowment, we strengthen long-term sustainability and focus our energy on ministry, relationships, and impact.
