

A Message from Rev. Chris

This Friday evening, Eileen Cummings and I will accompany members of our Youth Group to Boston, where we will join with over 100 other youth from multiple churches around the greater Boston area, of various denominations, for an overnight service-learning program with Cityreach, to learn firsthand about homelessness from people who have experienced it, and to offer hospitality, food and clothing to those experiencing homelessness right now in Boston. Thanks to all who donated clothing, we have sorted and filled my entire car with all the clothing we are taking with us!

This Sunday morning, Suzanne Chapman and Ruby Michaud will lead our faith development program. Children and youth will begin in the Skylight Room. Suzanne has been busy collecting hats, faux flowers, Easter craft templates, and spring wreaths to get us all ready for Easter. The children (of appropriate age) will get to use low-heat glue guns to put together their own Easter “bonnets”, or work on other craft projects. During Fellowship Hour, adults will be invited to join at the crafting table in Parish Hall, under Suzanne’s direction. Adults — bring your own baseball cap or other hat to decorate if you’d like to be sure to work on your own Easter “bonnet”. There will be plenty of hats for the kids, and plenty of wreaths and other items to decorate for all during Fellowship Hour.

This is a great time of year to invite a friend to church (it really always is)! Next Sunday, our annual Easter Egg Hunt will take place right after Easter worship, and is open to the wider community. Suzanne is graciously organizing the hunt again this year. We do have some decorated baskets saved from last year. If you have one at home, plan to bring it. All children will gather in the Fellowship Room after Easter worship for instructions, and the little ones will start outside first. Older youth are invited to participate as well as help out the younger ones if they choose. There will be plenty of eggs.

Abundant Blessings,
Rev. Chris
