**RE: BC/Alberta Partnership in Phase Three Restart Plans**

Mr. Premiers,

We write today to implore you and your governments to create an interprovincial zone that at the very least includes BC & Alberta as you move toward implementing the next phase in your provincial COVID-19 restart plans. We understand you may be considering this already but wanted to clearly articulate our support of that direction. This would be a pre-cursor to actively encouraging and supporting Canadians who are eager to explore this magnificent country from coast to coast to coast.

As you are aware, fellow Canadians are limited in their ability to travel internationally but both B.C. and Alberta would benefit if inter-provincial travel is not just allowed but encouraged. Such encouragement would provide leadership in reinforcing our common bond as Canadians and if inter-provincial travel occurs it will also help small businesses in both provinces, many of which are the lifeblood of rural communities on both sides of the border. We look forward to welcoming Albertans back to supernatural British Columbia this summer and we suspect the same goes for Alberta Chambers that have members that benefit from having British Columbians explore all that Alberta has to offer.

In many regions of B.C. including in the Okanagan, Alberta tourists and property owners have been positively contributing to our economic and social well being for decades and we would see them in the same light as any British Columbian. We hope you consider this as you look to lift travel restrictions and encourage domestic travel.

We understand that any easing of restrictions should happen safely and include precautions, and we fully support efforts that encourage travellers to be respectful of social distancing and other health protocols that are in place in both provinces.

Thank you for your consideration.

Sincerely,
