

Palestinian Mentorship Program

Corporate Sponsorship

Yadin Kaufmann, Founder & Chairman
Ari Gore, PMP Program Director

OVERVIEW

The PIP Organization is building a committed base of partner companies who will support our Mentorship branch, the Palestinian Mentorship Program (PMP). PMP empowers exceptional Palestinian tech entrepreneurs by connecting them to a global network of mentors. Companies can sponsor individual mentees, program events or choose to pledge annual donations. This support will allow us to continue our work facilitating the further professional growth of Palestinian business leaders as they seek to build innovative companies in the Palestinian private sector.

AREAS OF IMPACT

Founded in July 2020, PMP helps Palestinian entrepreneurs by matching them with experienced mentors from Israel, the US, Europe and the Gulf. This gives the mentees greater access to international markets, helps them establish stronger business networks, and develops their professional skills.

The PMP Network has proven to be invaluable: Mentees establish wider client networks and develop collaborative projects with one another and with their Mentors. PMP Mentors have helped their Mentees raise financing, establish strategic connections, and gain new clients.

Why get involved?
BRIDGE CULTURAL GAPS
BUILD RELATIONSHIPS
