

MEC-CBP Springfield Welcomes The Ultimate Care LLC

Ayeshia Quainoo, CEO and Clinical Nurse Director of Ultimate Care LLC. (TUC), a locally owned Northern VA based, SWaM certified Home Healthcare Agency, with 11+ years of experience as a registered nurse in acute and ambulatory care. In deciding to move TUC to the CBP Business Incubator Center (BIC), Ms. Quainoo demonstrated outstanding leadership and vision. This action has fast-tracked the agency's growth and visibility. With the support and advice from CBP professionals, the agency gets to avoid the major pitfalls of many startups. Ms. Quainoo also has a passion for Health Education and is a valued member of the U.S Women's Chamber of Commerce and the Fairfax Long Term Community Care Council. She is a compassionate leader and advocate for all of her clients and staff. Ayeshia is currently working on her Women-Owned Small Business (WOSB) certification to be completed by the end of calendar year 2018.

The Ultimate Care offers a unique blend of premier home healthcare with community-based health education and training services in Northern Virginia area. Market research indicates that there is a significant need for quality home health care and social services within this region and we believe that by hiring competent, compassionate staff and providing them with organized, compassionate, and responsive management, we will become the Home Health Care Agency of Choice in the DMV area.

TUC offers healthcare services such as: preventive, curative, promotional, rehabilitative, and palliative home care services in a systematic way to individuals, families and/or communities. Consumers of our services include: individuals, families, and/or communities in need of home health care or health education services. Our clients are usually referred by healthcare professionals such as: physicians, clients (past and present), hospitals, insurance companies, and other healthcare facilities/agencies. TUC has already developed excellent relationships with many of these professionals and/or clients, through the work of CEO & Chief Nurse Administrator Ayeshia Quainoo.

The Community Business Partnership BIC offers TUC the best chance for maturation; with mentorship, trainings, shared services, and networking events. Our growth potential is exponential. By keeping expenses low; funding from grants and/or angel investors, other resources such as: partnerships with other businesses in the BIC program, accounting and legal advice, TUC is poised for success. Having this business infrastructure in place, allows TUC to focus on what matters most: delivering first class, compassionate home care to our clients regardless of capital, color and/or creed. CBP is thrilled to welcome The Ultimate Care on board!
