

I am so excited to be a part of MEC because of the partnership between GMU, the business community and the City of Fairfax. I am enjoying being in one place with like-minded people, who care about their passions and their businesses. At this time being a Virtual Member, I still feel very welcomed by everyone and am looking forward to networking with many of you. I look forward to meeting other members of MEC and to learn about their businesses, and love the flexibility of being able to work my business when I want/choose to. I love the conference rooms and the energy in the building. I love to mentor people in business by educating them on time management, people skills, as well as providing a nurturing environment for people who would like to start their own business and if this Center provides me the opportunity to do so, I welcome it!
