

## **CBP-Business Incubation Center Client**

**Mary Bezzini** (Godman Power Group, Inc)

## **Featured Speaker at the International Women's Day Conference**

Mary Bezzini; pictured on the left end, (Godman Power Group, Inc) was a featured panelist at the March 15<sup>th</sup> International Women's Day 2018, Women in International Trade (WIIT) conference – topic Women Seizing New Opportunities with Africa: Driving U.S.-Africa Exports, Investment and Partnerships.

Godman Power Group, Inc is a Business Incubation Center Client at MEC-CBP in Springfield, VA. As a CBP client, her company has been benefited from the programs offered by the Women's Business Center, Small Business Development Center, Business Finance Center and Veterans Business Outreach Center.

Mary Bezzini, President and CEO of Godman Power Group, Inc., is a Virginia-based engineering services firm that builds and sells turnkey energy systems worldwide. She is an internationally recognized expert in the field of energy, software integration, security, and compliance, with particular depth in deploying microgrid technology and turbines. She has worked on contracts with the U.S. Army, the U.S. Navy, the Department of Justice, and the Department of Homeland Security.

In 2015, she was tapped to serve as a U.S. Trade Mission delegate to the Africagua Conference in the Fuerteventura, Spain, where she met with West African representatives and Energy Ministers to discuss energy development on the African continent over the next five years.
