

## Community Business Partnership Welcomes Two New Members to the Team!

Community Business Partnership is honored and excited to introduce two new members of the CBP team:

**Cachet Prescott** has joined the team as the new Director of the Small Business Development Center. This proud military spouse is a small business owner of 6+ years, a former SBDC Business Consultant and former Director of Business Development for a five-star Chamber of Commerce who brings a wealth of knowledge and experience in business development and consulting to our growth business clientele. A double-certified HR professional, Cachet brings expertise in organizational, career, leadership and professional development; learning and development, and training and development.

**Maribel Feliciano** is the new Assistant Director of the Veterans Business Outreach Center. Her passion for economic development and helping people start their businesses began showing when she was about five years old in her native Puerto Rico. She has since earned a degree in Finance and International Business from Illinois State University in 1996. Upon graduation, she relocated to Querétaro, Mexico where she had the opportunity to experience up close this vibrant country and the changes that were taking place during that time. Her passion for cultures, languages and economic development lead her to earn an MBA from Thunderbird, AGSIM in 2000. Soon after, she joined a small consultancy firm in London, England that helped new businesses in the “dot com” era. Now, after having spent some years raising her family, she is focusing her efforts on helping Veterans start their businesses.

**Welcome Aboard Cachet & Maribel!**
