

CBP MEC Springfield Welcomes International Development Institute/3E Groups

International Development Institute (IDI), established in 2007, provides capacity building and institutional strengthening programs through highly effective short-term courses, training and workshops, study tours and exchange programs. These services are provided to enhance capacities of public and private sector officials in the Asia, Middle East and North Africa Regions. IDI provides training on legal, regulatory, financial, managerial, technical, and institutional subjects under requirements for successful program/project design, implementation, and monitoring.

IDI is pleased to relocate to Springfield VA. Having outgrown their home-based office, IDI felt that CBP/MEC offered the perfect location for their company. Having a dedicated office in the incubation center which also offers legal, financial, and marketing counseling will help IDI expand their business.

IDI works with a number of countries in Africa and Asia on capacity building with its strong physical presence in Nigeria and Nepal. In addition to training programs, it also manages study tours to USA, Nepal, India, Bhutan, Tibet, Ghana and many other countries.

In addition it also runs a few flagship programs on Legislative Training, Accessible Tourism for people with disabilities and senior citizens, women entrepreneurship group and business incubator in Nepal, and training for financial services in Asia and Africa focusing on best practices on governance and

compliance. To this date, IDI has provided over 500 training programs and study tours. Currently it is also working on exchange program with high school students of USA and Nepal. IDI has signed a MOU with Nepal Tourism Board to promote Accessible Tourism and has been partnering in developing and executing trekking and hiking program for people with physical disabilities in Nepal. The program was a highlight of Nepal Tourism Board, UN World Tourism Organization and the Government of Nepal in 2017. For more information, visit our website
