11:15—11:30: Wrap Up

The evolution of technology in the workplace is accelerating. As employers implement new tech solutions to attract, retain, and engage top talent, they must also prepare for the risks of the digital age.

Join Gallagher on Thursday, March 22nd for “Tackling Benefit Technology”, a seminar dedicated to informing employers how to effectively evaluate technology solutions, implement data privacy and security strategies, and protect against cyber liability threats impacting employee benefits.
