

# Tri Colored Blackbird Listing Workshop

Tuesday, July 17, 2018

8:30am-10:30am

BIA, 1536 Eureka Rd., Roseville

ECORP Consulting, Inc. will present on the recent listing of tricolored blackbird as threatened species under the California Endangered Species Act.

The presentation will discuss how listing of the tricolored blackbird may affect development projects in the context of CEQA and environmental permits such as the California Department of Fish and Wildlife Lake or Streambed Alteration Agreement ("1602s").

In addition, the presentation will provide an introduction to the ecology of tricolored blackbird and habitats where this species may be found, mitigation measures that are often recommended for this species, and the compensatory mitigation that may be required by agencies for habitat impacts.
