CUSTOMIZED EMPLOYEE TRAINING

Transportation Construction Certificate

Explore careers in Transportation Construction and receive job training for successful entry into the field at Gateway. Through partnership with the Kentucky Transportation Cabinet and the University of Kentucky Transportation Technology Transfer Center, this program is available at no cost for participants from a historically disadvantaged background.

Participants will earn industry certifications and be eligible for sponsorship by the Kentucky Transportation Cabinet to complete the CDL program and obtain a CDL license. Gateway's CDL program is 160 hours in length with classes starting every month.

All classes will be held at Gateway Community and Technical College's Transportation Technology Center at 1051 Dudley Road, Fort Wright, KY 41017.
