

Spring Large Item Waste Pickup

The 2021 Spring Large Item Waste Pick Up is slated for the week of March 1, 2021. Items should be placed by the curb the week of February 22nd, so that Tiger Sanitation is able to estimate the number and type of vehicles/equipment needed to remove the items. Each resident is allowed to place a pile of **8 cubic yards or less** out by the curb, being careful not to block sidewalks or meters. Postcards will be sent to each home in advance of the pickup as a reminder. Commercial tree trimmers are not allowed to place tree trimmings at the curb for the pickup, unless prior arrangements have been made by the property owner with Tiger Sanitation. There is a charge for piles over 8 cubic yards, so residents wishing to take advantage of that type of service are advised to contact Tiger Sanitation at (210) 333-4287 to make those arrangements, prior to this event. Residents may also call Tiger Sanitation at any time of year for special pickups. Please see their website for charges for their services. For questions regarding the 2021 Spring Large Item Pick Up, please contact Leon Valley Public Works at (210) 681-1232.
