

Got Mask?

Leon Valley Does!

In an ongoing mission to prevent the spread of COVID19, the City of Leon Valley is collaborating with Bexar County to distribute 30,000 masks to OUR small business's community. If that's not enough, your Business Relations Director also secured eleven (11) free-standing countertop barriers made of heavy-duty plexiglass. Please share the great news and direct mask inquires to w.cox@leonvalleytexas.gov
