Bexar County Announces Expansion of CPS Energy Assistance Program

Bexar County Commissioners Court is excited to announce the expansion of the Residential Energy Assistance Partnership (REAP), a vital resource designed to support low-income families across our community. This expansion will broaden the program's reach, providing increased financial assistance to help more households manage their utility bills effectively.

County Judge Peter Sakai commented on the expansion, stating, "The expansion of REAP demonstrates our shared dedication to providing every resident with access to vital services. By extending the reach of this program, we are meeting urgent financial needs while reaffirming our commitment to the well-being of our community. We believe this effort will make a meaningful difference in the lives of many families across Bexar County."

CPS Energy customers who live in Bexar County may be eligible for REAP assistance if they meet at least one of these conditions: they are 60 or older, disabled, have children under 16 living with them, or use critical-care equipment, and meet the income guidelines at or under 150% FPL. To apply, customers need to provide proof of their eligibility.

REAP County program is specifically for households in Bexar County living in the 26 suburban cities and unincorporated areas. Residents seeking assistance can use the QR code that corresponds to the precinct of residence and sign up to receive notice of utility assistance application outreach events.

Find your precinct and scan the QR code to sign up for future event information:
