

INVESTED IN COMMUNITIES THAT POWER US

It's one thing to do business in the U.S. It's another to be invested in its future. A future that can be thoughtful, prosperous, and smoke-free.

We don't sell traditional cigarettes in the U.S. Instead, we're focused on purposeful innovation—offering legal-age adults who smoke a better path ahead.

We're invested in science. Delivering innovative, science-backed, FDA-authorized smoke-free products.

We're invested in responsibility. Committed to ensuring our products are only for adults 21 and over with strict age verification and responsible marketing practices.

We're invested in community. Since 2022, via community and national partnerships, we've granted over \$25 million to organizations supporting military veterans and their families, disaster relief, and economic empowerment.

Together, as we build our smoke-free future, we'll continue to invest in the industry, people, and opportunity of America.

Because our investment in America starts right here in Pennsylvania.
