

# New Award for 2018!

Master Builders of Iowa

## AWARDS & RECOGNITION PROGRAM

### WORKSAFE Project of the Year Award - 2018

Held each year during the MBI Annual Winter Conference, the MBI awards programs are a celebration of the Iowa commercial construction industry and everything that has been achieved over the past twelve months. The MBI awards recognize companies, teams and individuals that deliver outstanding results in the industry through collaboration and innovation. These prestigious awards provide one of the most effective platforms for leading companies to maximize their industry exposure for excelling in the Iowa construction industry and recognition can help attract new clients, bolster existing relationships and raise overall company morale.

Master Builders of Iowa takes great pride in recognizing individual and organizational achievements in the Iowa construction industry. Through MBI's annual awards programs, members can receive recognition for excellence in construction. The WORKSAFE Project of the Year Award will be presented to a deserving candidate during the Safety Awards Breakfast scheduled for Wednesday, February 28, 2018.

#### Important Dates to Note

# WORKSAFE PROJECT OF THE YEAR AWARD

## Recognizing a Project's Overall Safety Efforts

The WORKSAFE Project of the Year Award is recognition to the contractor of an enrolled WORKSAFE Project for significantly promoting, training and recognizing best safety practices on their site through the duration of the project. This award is given to recognize companies who are making it their mission to increase the visibility and effectiveness of worker safety in the built environment.

Entries must be from a Master Builders of Iowa member. The project for consideration must be "from the ground up" and shall be completed as of the date of submission. The project must have participated in a minimum of 4 surveys conducted by Construction Safety Specialists, Inc. and Iowa OSHA Consultation.

A panel of judges shall be compiled of a variety of safety professionals from the industry, as well as representatives from Iowa OSHA. The project will be judged on the following criteria:

- Best Practices – created as part of the WORKSAFE plan that were executed and carried out through the duration of the project
- WORKSAFE Values – were emphasized and implemented
- Pre-Planning
- Additional Hazard Remediation
- Collaboration
- Recordable Injuries
- Survey Scores
- WORKSAFE Implementation – At what stage of the project was WORKSAFE implemented

**NOMINATION SUBMISSIONS DUE DECEMBER 15, 2017**
