## CARMANAH — R829-E SCHOOL ZONE FLASHING BEACON

R829-E, R829-F & R829-G

Reduce vehicle speeds in school zones. Non-specialized school maintenance crews can add this compact, 13-watt flashing beacon to existing school speed limit signage, making installation fast and simple. With no grid connections required, the beacons reduce both installation and long-term operating costs. The battery, energy management system, and solar panel are contained in one unit, making this a self-contained solution.

## PLASTICADE — TRENCH COVERS

35", 27" AND PEDESTRIAN  
SIZES

Exceptionally rigid, yet lighter than steel. Easier & safer to lift into place than steel. More stable & durable than plywood. Less street noise. High visibility yellow. Anti-skid surface. Graduated edge prevents tripping. No scrap value for metal thieves. No cold patch needed. Rot & corrosion resistant.

## PLASTICADE — POWER POST™

WITH STEEL LEGS TYPE III

Plastic posts save you time and money!

- easier to handle
- set up and break down goes faster

Lightweight but strong

- 67% lighter than steel square tube posts
- impact resistant

Quick removal of uprights from feet

- allows for short term or permanent placement

No rust or corrosion. Use with Steel Square Tube feet or Angle Iron feet. Easy to assemble and replace parts if necessary.

## SWS — UTILITY TC12 ARROW BOARD

Anodized aluminum sheet metal body w/ 3M retroreflective material

Dual manual flap design with unique side flap retainer

12 x LED light heads

AutoDim™ photosensor for automatic night time dimming

Corrosion proof design

Dual optic lens for short and long range

The hermetically sealed light heads will not be affected by outside factors such as temperature, humidity & condensation

Easy replacement light heads

## GEVEKO — CHIP FILL

### Potholes

Potholes on the road can be dangerous hazards and must be attended to quickly to avoid accidents. Depending on the size of the road damage, we offer two different specially designed products which will fast and easily repair the road with a minimal downtime of traffic.

## GEVEKO — AQUAROUTE®

### WATERBORNE ROAD MARKING PAINT

AquaRoute® is our environmentally friendly waterborne road marking paints characterised by their easy use and fast-drying abilities. There are no special restrictions in order to work with waterborne paint, and it can be applied on both concrete and bituminous surfaces.
