

# Building a Better Halton

Project # W3366A

## Burloak Water Purification Plant

### Dehumidification and Building Automation System Upgrades

Maintaining clean drinking water

Notice of Construction – October 2025

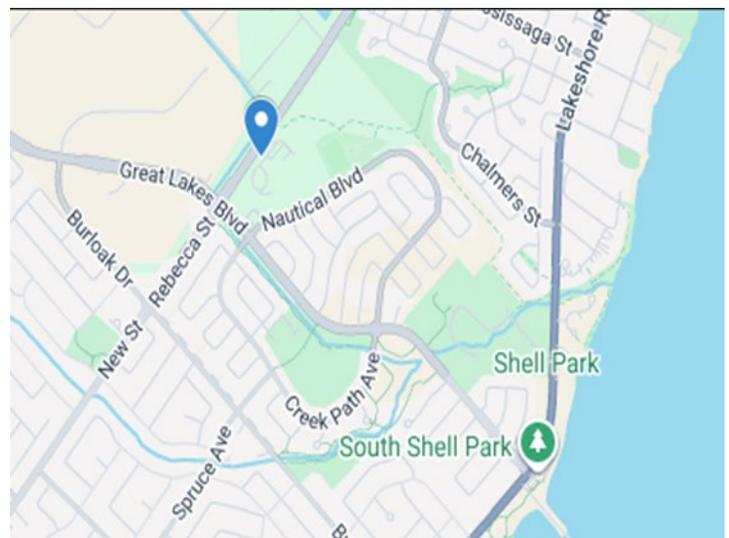

October 2025 to August 2026

#### About This Project

#### IMPROVEMENTS

To maintain regional infrastructure in a state-of-good-repair for the provision of clean and reliable supply of drinking water, Halton Region is making improvements to the Burloak Water Purification Plant. Improvements will include the following upgrades:

- Addition of two condensing units on concrete pads immediately adjacent to the existing building wall
- Addition of humidity control equipment inside the building

The Burloak Water Purification Plant, located at 3380 Rebecca Street, provides water supply for residents and businesses in Burlington, Oakville and Milton.

# Building a Better Halton

Project # W3366A

## About This Project

### PLANNING AHEAD

To help you plan ahead for construction activity, please read the project related information below. Wherever possible, mitigation plans will be put in place to minimize disruptions.

**Noise:** You may experience noise as a result of Regional improvements. We will schedule work in accordance with local noise by-laws.

**Dust and mud:** There may be increased levels of dust and mud near the work site. The contractor is required to manage these impacts.

**Tree removals:** The work may require the removal of trees to facilitate the new well installation. The work will be planned such that any tree removals will be kept to a minimum.

### MORE INFORMATION

Building a Better Halton is about more than construction. It is about investments in infrastructure, service delivery improvements and building complete communities that maintain the high quality of life that residents expect and enjoy.
