Notice of Planned Construction Update – PR-3547

December 2025 to September 2027

About This Project

Further to the Notice of Planned Construction Update sent on September 13, 2024, this notice provides a further project update. The Region is progressing with the watermain and wastewater main improvements on Trafalgar Road (Reg. Rd. 3) from Argus Road to Lawson Street, and various connecting streets in Ward 3 in the Town of Oakville. These improvements are necessary to maintain the Region's water and wastewater systems in a state of good repair and to support future growth in Oakville and across Halton Region.

Previously, we have been communicating the project numbers as PR-3547/3447. Moving forward this project will be referred to as PR-3547 and the attached map shows the revised project limits. Construction is now tentatively scheduled to begin in December 2025 and is anticipated to be completed by the end of September 2027. A more detailed letter will be sent out once the proposed construction dates are established.

For project updates and information, please visit [Trafalgar Road Watermain and Wastewater Main Improvements – South Oakville](#) or scan the QR code on the next page.

As part of the project design process, Halton Region staff and their consultants will be carrying out survey work for data collection.

Please do not move or remove any stakes or paint markings from your property. Our staff will remove the stakes once they have gathered all the necessary information. The paint markings will dissolve naturally.
