

WELCOME OUR SPECIALIST

# MICHELLE YANG, MD

Department of Pediatrics

**Michelle Yang, MD**, has joined the Neonatology Division, the Department of Pediatrics at the University of Utah School of Medicine as an Assistant Professor. She cares for neonates at both the University of Utah and Intermountain Healthcare facilities.

She is also a member of the Utah Fetal Center and is the neonatology lead for the upcoming IHC Pulmonary Hypoplasia follow-up clinic. Among Dr. Yang's responsibilities is the training of pediatric residents, neonatology fellows and neonatal nurse practitioners.

Dr. Yang received her medical degree from the Medical College of Wisconsin, completed her pediatric residency at the University of Vermont Medical Center, and fellowship at the University of Utah.

Dr. Yang has a particular interest in clinical research. Her current research focuses on neonates with surgical disorders, particularly those with pulmonary hypoplasia. This includes the congenital diaphragmatic hernia cohort, on which she has published and provided best practice management guidelines online. She is also interested in the research of novel perinatal therapies which may ultimately lead to improved clinical care. She is actively involved in both the design and conduct of clinical trials within the division.
