## The Impact of Sensory Processing & Dyspraxia on Performance, Behavior and Learning

Reserve Your Free Ticket at: <http://bit.ly/2FxvecI>

**Maude Le Roux**, OTR/L, SIPT, RCTC, DIR® Expert Trainer, is an accomplished occupational therapist with great affinity for learning and understanding the human brain.

Maude is SIPT certified and specializes in Sensory Integration services as it applies to functional activities of daily living, including improving the ability of any child to partake in his/her learning environment. She is a certified Cellfield Intervention provider, as well as a certified Tomatis Consultant.

Maude has developed the developmental Pathways Model (DPM) in reaching clients with different profiles with a wide array of diagnosis. She is well known for her work in Autism Spectrum Disorders, Learning Disorders, as well as Attachment Disorders. She serves on the board for ATTACH, an US national organization involved in attachment and trauma informed care. Maude has published two books; "The Listening Journey for Children", and "Our Greatest Allies" available through [www.amazon.com](http://www.amazon.com).
