

**Broward Sheriff's  
Advisory Council**

*"We protect those who  
protect us."*

## *The Next Move Chess Initiative*

On April 27, 2017, The Broward Sheriff's Advisory Council was proud to present a grant in the amount of \$5,000 to the Broward Education Foundation. The funds were used to help forward BEF's mission, in partnership with the National Scholastic Chess Foundation, to

bring chess instruction and activities to at-risk youth in Broward County and to young people incarcerated in youth detention programs in the County.

Learning and playing chess teaches skills that are very important for these young people to apply in other areas of their lives. In chess, you have to think before you act, and understand the consequences or outcome of each move you make. The goal of the program is that these students will also learn new skills for problem solving and see that a whole new world of opportunity opens up with better decision making.

We are happy to report that BSAC has once again contributed to this great program with a grant of \$7,500 in July of this year.
