PROPOSITION 144

Now, thinking about some of the ballot initiatives and referendum that will also be on the ballot in November. One initiative that will be on the ballot is Proposition 144 – the Voter Identification and Citizenship Voting Requirements Amendment. Specifically, this initiative would ask voters to approve the following:

Require voters to show proof of identity when voting in each election, including when voting by mail changing existing proof of identity requirements to limit acceptable documentation to government-issued ID

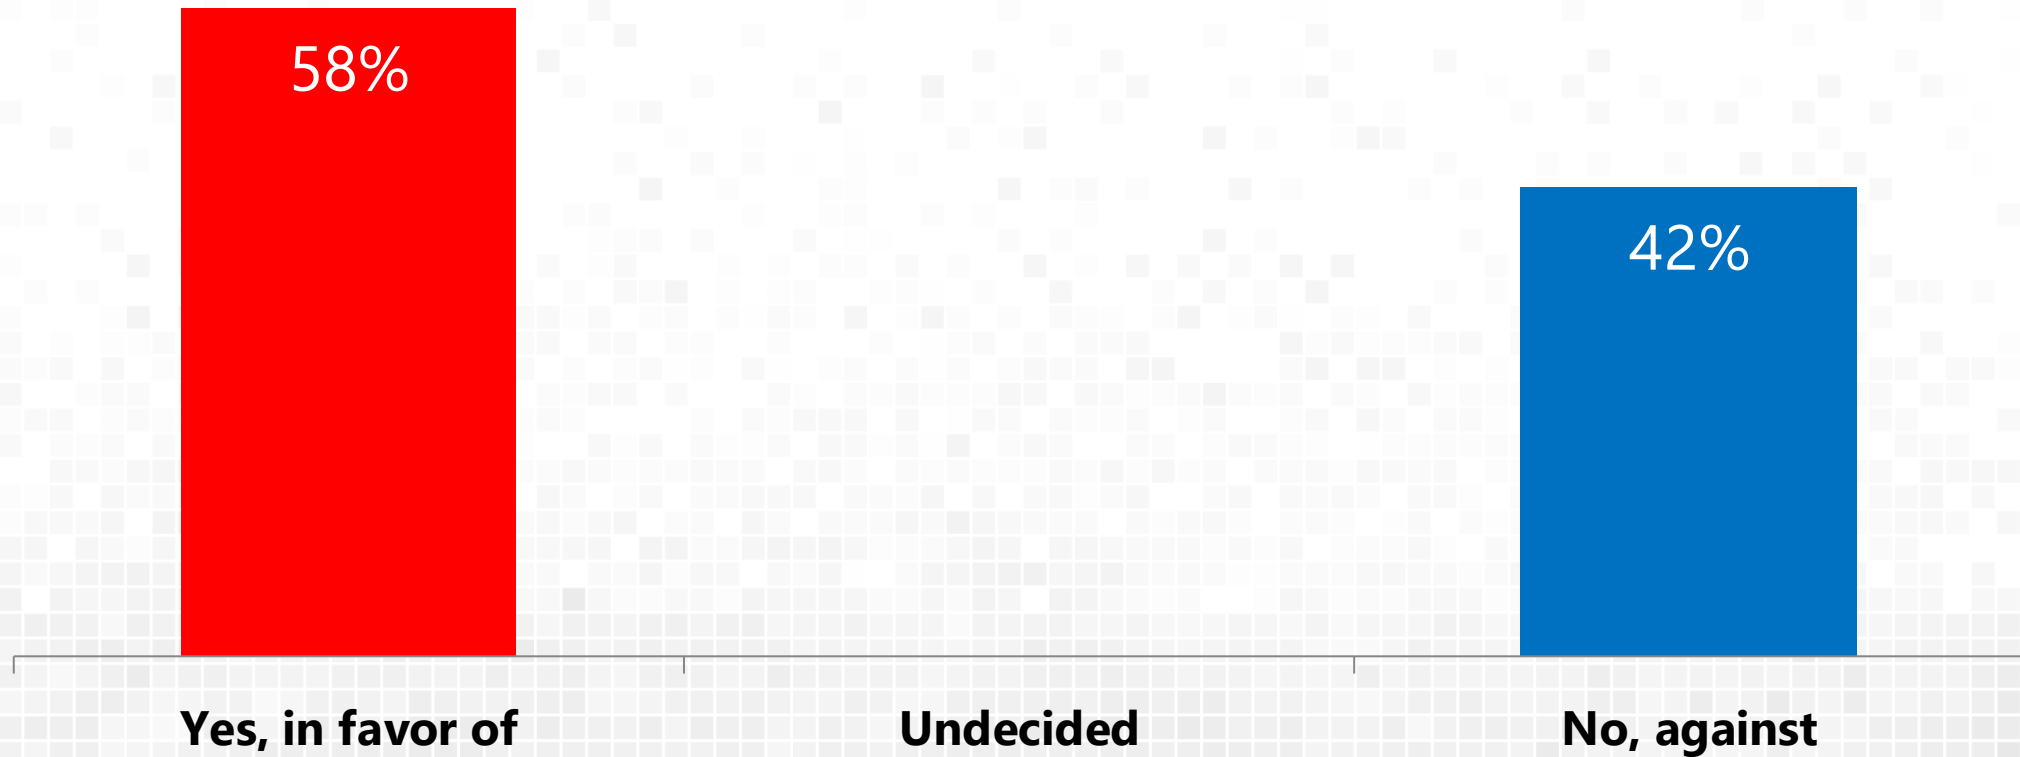

Require election officials to provide all voters the option to have their ballot tabulated at their voting location on election day

Prohibit foreign nationals from contributing or spending to influence elections in Arizona and prohibit anyone from knowingly accepting such contributions, similar to prohibitions that already exist in federal law

Create a new standard for judicial review of election laws under the Arizona Constitution, which may make it harder to challenge election laws

Require the legislature to appropriate money necessary to implement these provisions

If the election were held today and you had to make a choice, would you vote ...
-- Yes, in favor of , or No, against – this Voter Identification and Citizenship Voting Requirements Amendment?

Generally speaking, which of the following views comes closest to your own –
Election workers and officials are important volunteers in our community who count votes fairly and need to be able to do their jobs without interference OR
Election workers and officials are more partisan than they would have you believe, and they need to be monitored so they don't try and influence elections for the candidates and parties of their choice.
