

## Strengthening Our Team, Strengthening Our Impact

On October 13th, Easterseals team members across our Windsor, Norwich, and East Hartford facilities came together for a memorable **Staff Development Day** filled with learning, creativity, and meaningful connection.

The day was designed to be interactive and engaging, with a focus on fostering collaboration and strengthening relationships across departments. Staff had the opportunity to step away from their daily routines and invest in both professional growth and personal connection.

One highlight of the day was a dedicated space for open discussion, where staff shared their thoughts on what they value and need in the workplace. These conversations created an important opportunity for reflection, feedback, and shared vision-building as we continue to grow together.

Throughout the day, staff engaged in thoughtful conversations, creative challenges, and lighthearted moments that reminded us all of the power of teamwork and the importance of staying connected to our Easterseals mission and to one another.

We're grateful to everyone who helped plan and participate in the event—and most of all, to our incredible staff for bringing energy, openness, and enthusiasm. It was a great reminder that when we grow together, we thrive together.
