"Once A Sea Lion, Always A Sea Lion"

Here are some achievements Alyssa Tice has done while being at Kyle R. Wilson Elementary School:

- Has served as a mentor to other ART Educators
- Facilitated professional development for other Art Educators
- Maintains professional affiliation with the National Art Education Association
- All County Arts Festival
- Annual KWES Art Show
- Facilitated multiple paint nights for KWES students and staff

Alyssa Tice has worked with PWCS for over 20 years, 7 of which have been here at KWES. The time she has spent dedicating her creative mind to teaching our students and future artists is indescribable. Alyssa began teaching to show the appreciation of art and to help each student believe in their artistic talents. She believes each student is capable of making and appreciating art and has conduced an art show each year of her career to help show the importance of celebrating the young artists and to help them see just how proud of themselves they should be. Alyssa is getting ready to embark on a new and exciting part of her career, in high school. She is mostly excited about being their last point of contact and showing them that they do have what it takes to be artists if they set their minds to it. She wants to help them get rid of any doubts they may have in their minds and achieve their biggest dreams possible. We will miss her very much, but we know she will do great things and help other PWCS students along the way.
