Lockheed Martin Space's Advanced Manufacturing Technician Apprenticeship Program (AMTAP) is the launchpad to an exciting career in space manufacturing for those without related experience or a 4-year degree. AMTAP can help you forge a new path as an electronics technician with highly desired trade skills in just 9 weeks. AMTAP is also an "Earn While You Learn" model, meaning there are no upfront costs or tuition for learning new skills. Candidates who successfully complete the program may be offered full-time employment.

Interested in joining AMTAP Pennsylvania Cohort 5
