

A Message from the Director

Coaching pole vaulters to their potential in a highly technical event does not happen by accident. It is a collaborative effort between:

- eager athletes with the desire to jump higher and a great thirst for knowledge,
- the great coaches at schools who work with athletes to increase their speed and power as well as developing their vault,
- supportive parents who drive them often great distances and at great expense to get specialized coaching as well as the equipment they need,
- and advanced pole vault coaching, which is where we help most.

This has to be one of the best collaborations in sports and a sure way to maximize an athletes potential.

We teach sound pole vaulting methods used by the world's best coaches and athletes. This camp takes vaulters through the basic skills progressions necessary to vault high. The camp is open to all ability levels, ages 12 and older, including those who have never vaulted before. Pole vaulting is a extremely technical event and this is a very good way to develop vault skills with intense training, covering a multitude of topics.

We teach vaulters to vault high, with an emphasis on being safe at all times. Each athlete attending will have a greater knowledge and understanding of what they need most.
